

SMS Spinnler Fleury AG is privately owned and located in Niederdorf (Basel) and Balerna (Ticino). We develop prime innovative solutions for the fully automatic assembly of micromechanical systems for high tech and high precision domains such as watch, medical and electronic industry. In a small team, we are implementing the latest technologies in the field of image recognition, drive systems, quality assurance and automation control in order to create highly reliable and productive systems.

SMS Spinnler Fleury AG has opened in 2017 a new office in Balerna (Canton Ticino). The company is expanding its business and we plan to open a new Production Unit in Ticino within 2019 in addition the operations in Niederdorf (Basel).

We subcontract our mechanical parts to specialized local partners. Our internal production is focused on the assembly of and the tooling for our machines. We procure standard parts such as PLC, pneumatics, servo motors, etc. from international industry leaders. Our machines are exported worldwide. We are recruiting *immediately* a key personality as

Logistics Manager / Supply Chain Manager (m/f)

Tasks

- Management of the logistics for both sites in BL and TI
- Responsible for the ERP BlueOffice (data consistency and structure, creating and managing BOM, change management)
